PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience in building scalable cross-platform mobile applications using Flutter, Dart, Android, and iOS technologies. Expertise in Clean Architecture, MVVM, modular application design, BLoC state management, REST API integration, Firebase services, BLE/Wi-Fi communication, and reusable component development. Experienced in translating Figma designs into responsive and pixel-perfect applications, integrating third-party SDKs, implementing testing strategies, conducting code reviews, and managing Android and iOS release cycles. Passionate about building production-grade applications with high performance, maintainability, and excellent user experience.

WORK EXPERIENCE

Senior Engineer Oct 2025 – Present

TATA ELXSI, Bangalore

- Built mobile apps that connected with BLE and Wi-Fi smart devices like thermostats, Warmfoot, and video doorbells, with smooth setup and stable performance.
- Built scalable frameworks supporting multiple smart products under a unified architecture.

Specialist Jan 2023 – Oct 2025

ESDS Software Solutions Ltd

- Developed reusable Flutter libraries and packages for RESTful API integration.
- Implemented BLoC, GetX, and Clean Architecture patterns for scalable app development.
- Built agricultural and government apps such as NERACE Buyer, NERACE Seller, OCAC ICAR, FAMRUT, and NEDFI.
- Designed and implemented a video calling feature for the SOIL Health Card Advisory module.
- Conducted technical code reviews and implemented unit, widget, and integration testing.
- Explored Jetpack Compose for modern Android UI development.

Software Engineer Nov 2020 – Dec 2022

Winjit Technologies Pvt Ltd

- Built Flutter libraries and managed RESTful API integrations.
- Led a team of developers and provided training in Flutter and Android development.
- Integrated voice recognition and Google Assistant features into mobile applications.
- Contributed to the Flutter community by developing open-source packages and plugins.
- Applied architectural patterns (MVC, Clean Architecture) to ensure scalable app structures.

Software Developer Nov 2020 – Dec 2022

Arisikey Technologies Pvt Ltd

- Built Flutter libraries and managed RESTful API integrations.
- Led a team of developers and provided training in Flutter and Android development.

EDUCATION

Bachelor of Computer Application

University of Pune
Final Percentage: 63.8

Master In Computer Applications

Pune University
• Final CGPA: 7.6

SKILLS

- **Languages:** Dart, Java, Kotlin, Swift
- **Frameworks & SDKs:** Flutter, Android SDK, Jetpack Compose, Google Maps SDK
- **Databases:** Firebase, SQLite, Room DB
- **Tools:** GitHub, GitLab, Xcode, Android Studio
- **Architecture:** Clean Architecture, MVVM, Modular Architecture, MVC
- **Version Control:** Git, GitLab CI/CD, GitLab,
- **Testing:** Unit, Widget, Integration Testing
- **Cloud Services:** Firebase, Google Cloud
- **Other:** IoT Device Provisioning, BLE Communication, Secure Pairing
- **AI Tools:** ChatGPT, Git Copilot, Cursor, etc
- **State Management:** BLoC, Cubit, GetX, Provider

Projects

- Developed Flutter application that helps to connect BLE, WiFi Device for smart home applications like Home Security, Doorbell Video, Water Leakage detectors and etc.
- Developed connected-device apps using Flutter, adding secure wireless setup, live communication, banking support, and AI-copilot-driven task hints.
- Built monitoring and control features with automation, video access, and reusable framework pieces to speed up development.
- Build Application for State and central govt for Smart Farming and Advisory/ Scheme Beneficiary application.
- Created digital tools with clean flows, shared libraries, and stable data layers.
- Developed E-Commerce Application using MVC and MVVM architecture.
- Developed Banking application and added feature for automated build creation, Code Review and Build Deployment to Play Console and Apple Store.

Certifications

- Career Essentials in GitHub Copilot Professional Certification– (**Linkedin Learning Platform**)
- CLEAN architecture and SOLID principle for Android in KOTLIN – (**Udemy**)
- Learn Android Application Development – (**Udemy**)
- Flutter Development Certification – Internal Training, Winjit Technologies
- Android Development Certification – KKWIEER, Nashik
- Agile Development & CI/CD Practices – ESDS Software Solutions
